

ASX Release

SUDA LTD: APPENDIX 4C FOR SECOND QUARTER FY2015

PERTH, AUSTRALIA – 30 January 2015: SUDA LTD (ASX: SUD), a leader in oro-mucosal drug delivery, today released its Appendix 4C for the consolidated Group for the second quarter of FY2015. Receipts from customers for the period were \$1.9m, a quarter-on-quarter increase of 23% from the first quarter. Excluding receipts from the contract with an organisation funded by the Federal government, which provided an exceptional boost to the FY2014 results, the second quarter sales increased 22% from the same period in the previous year.

The net operating cash loss for the second quarter narrowed to \$0.9 million compared to \$1.0 million in the first quarter. Cash at the end of the second quarter was \$3.1 million.

SUDA's CEO, Mr Stephen Carter, commented: "We are pleased to see an underlying growth rate of over 20% in Westcoast's business activities. The exceptional revenue that boosted FY2014 results derived from the provision of medical products to detention centres. This has shrunk significantly in FY2015 due to the government's Operation Sovereign Borders policy. Westcoast has been investing in its new revenue drivers, including the HemoStyp[®] wound-healing gauze and its new Brisbane-based operations. We anticipate these opportunities adding to the growth of the business."

NOTES TO EDITORS:

About SUDA LTD

SUDA LTD (ASX: SUD) is a drug delivery company focused on oro-mucosal administration, headquartered in Perth, Western Australia. The Company is developing low-risk oral sprays using novel formulations of existing off-patent pharmaceuticals. The many potential benefits of administering drugs through the oral mucosa (ie: cheeks, tongue, gums and palate) include ease of use, lower dosage, reduced side effects and faster response time. SUDA's product pipeline includes Zolpimist®, a first-in-class oral spray of zolpidem for insomnia. Zolpimist® is marketed in the USA and SUDA has rights to the product outside of the Americas and South Africa. SUDA's most advanced development-stage product, ArTiMist™, is a novel sublingual malaria treatment for children. In a Phase III trial, ArTiMist™ was shown to be superior to intravenous quinine. Other products in development include oral sprays for the treatment of migraine headache, chemotherapy-induced nausea and vomiting, erectile dysfunction and pre-procedural anxiety. Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 1026: Statement of Cash Flows* apply to this report except for the paragraphs of the Standard set out below.
 - 6.2 - reconciliation of cash flows arising from operating activities to operating profit or loss
 - 9.2 - itemised disclosure relating to acquisitions
 - 9.4 - itemised disclosure relating to disposals
 - 12.1(a) - policy for classification of cash items
 - 12.3 - disclosure of restrictions on use of cash
 - 13.1 - comparative information
3. **Accounting Standards.** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
