The charters, policies, and procedures are regularly reviewed and updated to comply with law and best practice. These charters and policies can be viewed on SUDA's website located at [www.sudapharma.com](http://www.sudapharma.com) (SUDA Website).

SUDA and the Board are committed to achieving and demonstrating the highest standards of corporate governance. The Board guides and monitors the Company's activities on behalf of the shareholders. In developing policies and setting standards the Board considers the Australian Securities Exchange ("ASX") Corporate Governance Council's Corporate Governance Principles (3<sup>rd</sup> Edition) (ASX Principles and Recommendations) and throughout the year ended 30 June 2020 (Reporting Period), it considers that it has complied with the ASX Principles and Recommendations.

This Corporate Governance statement was approved by the Board of Directors and is current as at 25 September 2020.

## 2. The Board of Directors

### 2.1 The Role of the Board

The Board Charter sets out the Board's role, powers and duties and establishes the functions reserved for the Board and those which are delegated to management.

The primary objectives of the Board are to:

- a) represent shareholders and serve the interests of the Group by overseeing and evaluating Group's strategies, policies and performance.
- b) provide strategic guidance for SUDA and be responsible for monitoring and evaluating management in adhering to and achieving performance in line with policy and strategy.
- c) monitor SUDA's performance and sustainable shareholder value within a framework of appropriate risk assessment and management.
- d) recognise SUDA's legal and other obligations to all legitimate stakeholders.

The Board's key responsibilities cover:

- i. strategy, including approving strategic plans and performance objectives;
- ii. financial management including approving budgets and major capital expenditure;
- iii. compliance and risk management;
- iv. oversight of management including appointing the CEO;
- v. ethics and culture;
- vi. diversity;
- vii. shareholders' rights including reviewing the effectiveness of communications with shareholders; and
- viii. corporate governance.

In respect of the responsibilities of the CEO, the Board delegates to the Chief Executive Officer matters involving the management of SUDA's day-to-day affairs. The CEO, in turn, has authority to sub-delegate to the management team. The CEO is responsible for managing the Group in accordance with strategies and policies approved by the Board and for keeping the Board informed of all activities within the Group.

Specific limits on the authority delegated to the CEO are set out in the Delegation of Authority Policy approved by the Board.

Further details of Board responsibilities, objectives and structure are set out in the Board Charter on the SUDA Website.

*ASX Best Practice Recommendation: 1.1*

## 2.2 Composition of the Board

The Board currently, as at the date of this report, comprises two non-executive Directors (Messrs Paul Hopper and David Simmonds) and two executive Directors (Mr David Phillips and Dr Michael Baker).

As at 30 June 2020, the Board comprised of one independent, non-executive Director (Mr David Simmonds) and two executive Directors (Messrs Paul Hopper and David Phillips). Changes to the Board occurred on 1 July 2020.

On 23 September 2019, Mr Stephen Carter resigned as Managing Director and Mr Paul Hopper became Executive Chairman. On 1 July 2020, Dr Michael Baker, who had joined SUDA as the Chief Executive Officer on 2 January 2020, was appointed as the Managing Director and Mr Paul Hopper became the non-executive Chairman.

The Board recognises the recommendations in respect of the composition of the Board and has made substantial changes over the last 12 months. However, the Board is of the opinion that currently the Company is a comparatively small company and the appointment of additional non-executive independent Directors to have a majority of independent directors, at this stage would not result in any greater benefits or efficiencies in the Board's work. The composition is reviewed on an annual basis.

The Constitution authorises the Board to appoint Directors to vacancies and to elect the Chair. One third of Directors (excluding a Director appointed to fill a casual vacancy and rounded down to the nearest whole number) must retire at every annual general meeting. No Director may remain in office for more than three years without resigning and standing for re-election. Any Director appointed by the Board must stand for election at the next annual general meeting of security holders.

Board support for Directors retiring and seeking re-election is not automatic. Prior to each AGM, the Board determines whether it will recommend to security holders that they vote in favour of the re-election of each Director seeking election on a rotational basis. SUDA provides security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a Director in the AGM notice of meeting.

Details of the skills, experiences, expertise and length of service of each Director are set out in the 2020 Annual Report (Annual Report).

The following table summarises the experience, skills and attributes of the Directors serving on the Board at 30 June 2020:

## 2.3 Independence of Directors

The Board recognises the importance of ensuring that Directors are free from interests and relationships that could, or could reasonably be perceived to, materially interfere with the Director's ability to exercise independent judgment and act in SUDA's best interests.

Accordingly, the Board has adopted guidelines, set out in the Board Charter, which are used to determine the independence of Directors and are based on the definition of independence listed in Box 2.3 of the ASX Principles.

In accordance with these guidelines, the Board generally considers a Director to be independent if he or she is not a member of management and:

- is not a substantial shareholder of SUDA or an officer of, or otherwise associated with, a substantial shareholder of SUDA;
- is not employed, or been previously employed in an executive capacity by SUDA, or where they were previously employed in such a capacity, there has been a period of at least three years between ceasing such employment and serving on the Board;
- within the last three years has not been a partner, director, professional adviser or senior employee of a provider of material professional services;
- is not in a material business relationship (e.g. as a supplier, professional adviser or customer) of SUDA, or an officer of or otherwise associated with someone with such a relationship;
- has no material contractual relationship with SUDA other than as a director of SUDA;
- does not have close family ties with any person who falls within any of the categories described above;
- has not served on the Board for a period that his or her independence may have been compromised;
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of SUDA.

The Board considers the materiality of a Director's interests, position, association or relationship on a case by case basis.

The Board has reviewed the independence of its Directors and considers that Mr David Simmonds is independent as at 30 June 2020.

On 23 September 2019, on the resignation of Mr Carter, Mr Hopper became Executive Chairman on an interim basis. Prior to this date, Mr Hopper was an independent director.

Dr Michael Baker joined the Company as CEO on the 2 January 2020 and appointed to the Board on 1 July 2020. Mr Hopper resumed his role as non-executive Chairman on the 1 July 2020.

Directors also have an ongoing responsibility to disclose any actual or potential transactions or interests that may create a conflict of interest. They may also be required to take steps to remove any conflict of interest. If a Director cannot or will not remove a conflict of interest, then the Director must be absent from the room when discussion and/or voting occurs on matters to which the conflict relates.

*ASX Best Practice Recommendation: 2.3.*

### 2.4 Selection and Induction of New Directors

The Board considers that a diverse range of skills, backgrounds, knowledge and experience is required in order to effectively govern the Company.

The Board believes that orderly succession and renewal contributes to strong corporate governance and is achieved by careful planning and continual review. The Nomination Committee reviews the size and composition of the Board and at least once a year as part of the Board evaluation process. The Board has a skills matrix covering the competencies and experience of each member. When the need for a new Director is identified, the required experience and competencies of the new Director are defined in the context of this matrix and any gaps that may exist. Generally, a list of potential candidates is identified based on these skills required and other issues such as geographic location and diversity criteria. External advisors may be employed where necessary to search for prospective board members.

Candidates are assessed against the required skills and on their qualifications, backgrounds and personal qualities. In addition, candidates are sought who have a proven track record in creating security holder value and the required time to commit to the position. Appropriate background and other checks are undertaken before the Nomination Committee will then recommend the most appropriate candidate(s) for consideration by the Board as a whole.

On 1 July 2020, the Company appointed Dr Michael Baker as Director and, in accordance with the Company's Constitution, the new Director will not be required to retire at the next annual general meeting as Dr Baker holds the position as Managing Director and is exempt from retirement and re-election. Information relating to each Director is provided in the Annual Report.

New non-executive Directors will be issued with a formal letter of appointment that sets out the key terms and conditions of their appointment, including Director's duties, rights and responsibilities, the time commitment envisaged and the Board's expectations regarding involvement with Committee work.

An induction program is in place for all new executives and staff. Non-executive Directors and other executives are encouraged to engage in professional development activities to develop and maintain the skills and knowledge needed to perform their role as Directors and senior executives effectively.

*ASX Best Practice Recommendations: 1.2, 1.3 and 2.6*

### 2.5 Company Secretary

# **4. Performance evaluation and remuneration**

## **4.1 Performance evaluation**

The Chair of the Board conducts a formal review of its effectiveness and the effectiveness of the individual Directors and the Board Committees. With the assistance of the HR & Remuneration Committee, the Board also reviews annually the performance and remuneration of the CEO.

A performance evaluation was undertaken during the Reporting Period in accordance with that process. Board changes occurred in September 2019 (Mr Carter resigned) and on 1 July 2020 (Dr Baker was appointed).

Every three years the Board shall consider engaging an external consultant to conduct a comprehensive review of the effectiveness of the Board, its Committees and individual directors. This review must be conducted against the terms of the Board Charter or relevant Committee Charter and shall include surveys of each Director and relevant external persons (such as auditors). These reviews will be coordinated by the Nomination Committee.

Formal written service contracts govern the services, duties and responsibilities of the Chief Executive Officer and the Chief Financial Officer whose performances are regularly measured. A set of key performance indicators applies to each of these Officers, and performance evaluation against indicator attainment was carried out by the Board, with the interim Chairman abstaining, in respect of the CEO and by the CEO in respect of the CFO.

A performance assessment for senior executives was last conducted on or about the anniversary of the executives' commencement date.

*ASX Best Practice Recommendations: 1.3, 1.6 and 1.7*

### 4.2 Non-executive Director remuneration

The ASX Listing Rules specify that the aggregate remuneration of non-executive directors shall be determined from time to time by a general meeting. The latest determination was at the Annual General Meeting held on 25 November 2010 when shareholders approved an aggregate remuneration of \$200,000 per year.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers advice from external shareholders as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process.

Each Director receives a fee for being a Director of the Company.

The chairman, Mr Paul Hopper, was granted 1,600,000 options under the employee share option plan on commencement of his role as a non-executive director. The issue of the options was subject to shareholder approval.

No bonuses are paid to non-executive Directors, nor are there any terminations or other benefits paid on retirement. Non-executive Directors are not eligible to participate in the short-term incentive plan.

*ASX Best Practice Recommendation: 8.2 and 8.3*

### 4.3 Director and senior management remuneration

Details of executive directors and senior management remuneration, including the Company's policy on remuneration are contained in the "Remuneration Report" which forms part of the Directors' Report.

The performance of the Company depends upon the quality of the directors and senior management. The philosophy of the Company in determining remuneration levels is to:

- set competitive remuneration packages to attract and retain high calibre employees;
- link executive rewards to shareholder value creation; and
- establish appropriate, demanding performance hurdles for variable executive remuneration.

Remuneration levels of the directors and key management personnel are set by reference to similar-sized companies with similar risk profiles and are set to attract and retain senior management capable of managing the consolidated entity's operations. The Board undertakes an annual review of its performance against goals set at the start of the year.

Executives' remuneration packages involve a balance between fixed and performance-based pay. The following long-term incentive plan had been adopted and approved by the shareholders: Employee Share Option Plan (Option Plan) under which Directors and executives and other employees may be offered the opportunity to be granted Options.

The Option Plan is linked to both performance criteria and continuous employment criteria.

Under the Option Plan, directors and senior management have the ability to utilise a cashless exercise facility whereby the participant is entitled to set-off the exercise price against the number of shares which the participant is entitled to receive upon exercise of the options. By using the cashless exercise facility, the participant will receive shares to the value of the surplus after the exercise price has been set-off.

Executives are eligible for a short-term incentive plan (STIP) which is outlined in the Annual Report. As at the Reporting Date, executive directors have not been approved to participate in the STIP.

There are no termination clauses in the employment agreements and no other benefits payable on retirement.

All participants in an equity based remuneration scheme are prohibited from entering into any transaction that would have the effect of hedging or otherwise transferring the risk of any fluctuation in the value of any unvested entitlement in company securities to any other person.
